Art Unit: 3748

Applicant's amendment dated June 26, 2006, has been fully considered.

Applicant has amended the claims to add new limitations to overcome the previous rejection. However, a new ground of rejection has been made based on newly discovered from further searches.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10-17 are rejected under 35 U.S.C. 102(b) as being anticipated by US 4548043 (Kalina).

Regarding claims 10, 15, Kalina discloses a method/apparatus for producing power comprising a feed pump 51, a recuperator 56, a heater/superheater 68, 70, 72, turbine 74, 76, a condenser 52.

Regarding claims 11, 16, note there are many cooling stages, inside the recuperator 56, then through the heat exchanger 54 with another fluid source 59, and inside the condenser 52 with another fluid source through 47, 48, all fluid are in counter flow direction with the working fluid.

Regarding claims 12, 17, note the preheater 62.

Art Unit: 3748

Regarding claims 13-14, Kalina discloses on column 6, lines 35-47 that the heat sources can be from many types of heat sources including waste heat, primary fuel (biomass is a primary type of fuel).

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
